the series see power rangers
series scroll down for a full list
of mainstream rangers a power
ranger is a human or humanoid
warrior who morphs from a
natural unpowered form often
using a device called a morpher
into a superhuman form clad in
a full body costume
irreverently called spandex on
more than one occasion but
actually an

ionization energy wikipedia
Feb 20 2022 in physics and
chemistry ionization energy ie
american english spelling
ionisation energy british
english spelling is the minimum
energy required to remove the
most loosely bound electron of
an isolated gaseous atom
positive ion or molecule the
first ionization energy is
quantitatively expressed as $x g$
energy $x g e$ where x is any
atom or molecule x

photoelectric effect wikipedia
Jun 14 2021 the photoelectric
effect is the emission of
electrons when
electromagnetic radiation such
as light hits a material
electrons emitted in this
manner are called
photoelectrons the
phenomenon is studied in
condensed matter physics and
solid state and quantum
chemistry to draw inferences
about the properties of atoms
molecules and solids the effect
has found use in

phonon wikipedia Apr 12
2021 in physics a phonon is a
collective excitation in a
periodic elastic arrangement of

atoms or molecules in
condensed matter specifically
in solids and some liquids a
type of quasiparticle a phonon
is an excited state in the
quantum mechanical
quantization of the modes of
vibrations for elastic structures
of interacting particles
phonons can be thought of as
quantized sound

metalloid wikipedia Jul 04 2020
a metalloid is a type of
chemical element which has a
preponderance of properties in
between or that are a mixture
of those of metals and
nonmetals there is no standard
definition of a metalloid and no
complete agreement on which
elements are metalloids despite
the lack of specificity the term
remains in use in the literature
of chemistry the six commonly
recognised metalloids are
