Year We (Nearly) Won the League Jan 22 2022 The Year We (Nearly) Won the League charts one of the closest ever top-flight title battles in English football. It was 1974/75 and with just four games to go, no fewer than ten clubs had a chance of winning. One was Stoke City, fielding the best team they had ever had. This book follows Stoke as they rise to the top spot, only to fall at the final hurdle. You'll discover the unorthodox methods of Tony Waddington, a manager with an eye for talent and a flair for sensational signings. Some of them are legends of English football: Banks, Hurst, Hudson and Shilton. This campaign was the final glorious hurrah of that team, before the club met near bankruptcy and relegation. Half a century on, the players themselves recall a time when hearts - and legs - were broken, when the football flowed and the drink did too. Although the focus is on one club, this story of Stoke's 'nearly men' will resonate with every fan whose team has promised much, but never quite scaled the summit.

Folk singer Cerys Davies left Wales for the South Downs village of Padcock at Christmas, desperate for a new beginning. It ' s just too bad he ' s firmly in the clutches of Awful Belinda ... Perhaps Cerys has to learn that some new beginnings take a while to ... well, begin! Faithful Generations Jul 04 2020 Religion—both personal faith and institutional tradition—plays a central role in the lives of the 12.5 million Asians in the United States. It provides comfort and meaning, shapes ethical and political beliefs, and influences culture and arts. Faithful Generations details the significance of religion in the construction of Asian American identity. As an institutional base for the movement toward Asian American panethnicity, churches provide a space for theological and political reflection and ethnic reinvention. With rich description and insightful interviews, Russell Jeung uncovers why and how Chinese and Japanese American Christians are building new, pan-Asian organizations. Detailed surveys of over fifty Chinese and Japanese American congregations in the San Francisco Bay area show how symbolic racial identities structure Asian American congregations. Evangelical ministers differ from mainline Christian ministers in their construction of Asian American identity. Mobilizing around these distinct identities, evangelicals and mainline Christians have developed unique pan-Asian styles of worship, ministries, and church activities. Portraits of two churches further illustrate how symbolic racial identities affect congregational life and ministries. The book concludes with a look at Asian American–led multiethnic churches. This engaging study of the shifting relationship between religion and ethnicity is an ideal text for classes in ethnicity, religion, and Asian American studies.

So, he developed a specifically customized ship that was frozen into an ice cube and crossed the Polar waters in this shape. The vessel did freeze successfully. Yet, the journey was too long, and Nansen left the ship to reach the Pole on skis. He and his companion Hjalmar Johansen left for the pole but didn't manage to get it. However, they were the first people to achieve the farthest north latitude of 86 ° 13.6 N. The story tells about this challenging journey through snow and waters makes a unique record of one of the most incredible northern expeditions.
