A Room of One's Own and Three Guineas (Vintage Classics Woolf Series) Jan 19 2022 This volume combines two books which were among the greatest contributions to feminist literature this century. Together they form a brilliant attack on sexual inequality. A Room of One's Own, first published in 1929, is a witty, urbane and persuasive argument against the intellectual subjection of women, particularly women writers. The sequel, Three Guineas, is a passionate polemic which draws a startling comparison between the tyrannous hypocrisy of the Victorian patriarchal system and the evils of fascism.

Inquiring about God: Volume 1, Selected Essays Dec 06 2020 *Inquiring about God* is the first of two volumes of Nicholas Wolterstorff's collected papers. This volume collects Wolterstorff's essays on the philosophy of religion written over the last thirty-five years. The essays, which span a range of topics including Kant's philosophy of religion, the medieval (or classical) conception of God, and the problem of evil, are unified by the conviction that some of the central claims made by the classical theistic tradition, such as the claims that God is timeless, simple, and impassible, should be rejected. Still, Wolterstorff contends, rejecting the classical conception of God does not imply that theists should accept the Kantian view according to which God cannot be known. Of interest to both philosophers and theologians, *Inquiring about God* should give the reader a lively sense of the creative and powerful work done in contemporary philosophical theology by one of its foremost practitioners.

The Inner Life Sep 27 2022 Three classic essays by the distinguished Indian Sufi master offer an introduction to Islamic mysticism and reflections on the spiritual life

The Oxford Handbook of Theology and Modern European Thought Aug 22 2019 'Modern European thought' describes a wide range of philosophies, cultural programmes, and political arguments developed in Europe in the period following the French Revolution. Throughout this period, many of the wide range of 'modernisms' (and anti-modernisms) had a distinctly religious and even theological character-not least when religion was subjected to the harshest criticism. Yet for all the breadth and complexity of modern European thought and, in particular, its relations to theology, a distinct body of themes and approaches recurred in each generation. Moreover, many of the issues that took intellectual shape in Europe are now global, rather than narrowly European, and, for good or ill, they form part of Europe's bequest to the world-from colonialism and the economic theories behind globalisation through to democracy to terrorism. This volume attempts to identify and comment on some of the most important of these. The thirty chapters are grouped into six thematic parts, moving from questions of identity and the self, through discussions of the human condition, the age of revolution, the world (both natural and technological), and knowledge methodologies, concluding with a section looking explicitly at how major theological themes have developed in modern European thought. The chapters engage with major thinkers including Kant, Hegel, Kierkegaard, Heidegger, Schleiermacher, Nietzsche, Dostoevsky, Barth, Rahner, Tillich, Bonhoeffer, Sartre, de Beauvoir, Wittgenstein, and Derrida, amongst many others. Taken together, these new essays provide a rich and reflective overview of the interchange between theology, philosophy and critical thought in Europe, over the past two hundred years.

Three Essays on Oriental Painting (Classic Reprint) Aug 14 2021 Excerpt from *Three Essays on Oriental Painting* Anyone with an extensive knowledge of our pictures cannot fail to discern this common characteristic of com position, namely, that the centre of a picture is not found in any Single individual Object, for the guiding principle of the synthesis is expressed in the mutual relations of all the Objects treated. In other words, in Japanese painting no serious attempt is made to give all-exclusive prominence to any one particular object, but, instead, the effect of the whole is considered the point of prime importance. Hence in the minds of our painters, not each and every portion of a picture need be accurate, but the picture as a whole should be microcosmically complete. Such is but the inevitable outcome of stress laid almost exclusively on subjective ideas. To verify the principles above stated, let me in the following sections deal with paintings under the three different subjects, viz.: 1. Human Figures; 2. Animals and Flowers; 3. Landscapes, showing each in its historic evolution. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Critical and Historical Essays Contributed to the Edinburgh Review, Vol. 3 of 3 (Classic Reprint) Jan 07 2021 Excerpt from *Critical and Historical Essays Contributed to the Edinburgh Review, Vol. 3 of 3* In some respects Mr. Leigh Hunt is excellently qualified for the task which he has now undertaken. His style, in spite of its mannerism, nay, partly by reason of its mannerism, is well suited for light, garrulous, desultory aria, half critical, half biographical. We do not always agree with his literary judgments; but we find in him what is very rare in our time, the power of justly appreciating and heartily enjoying good things of very different kinds. He can adore Shakspeare and Spenser without denying poetical genius to the author of *Alexander's Feast*, or fine observation, rich fancy, and exquisite humour to him who imagined *Will Honeycomb* and *Sir Roger de Coverley*. He has paid particular attention to the history of the English drama, from the age of Elizabeth down to our own time, and has every right to be heard with respect on that subject. Critical and Miscellaneous Essays of Sir Walter Scott, Bart, Vol. 3 (Classic Reprint) Jun 12 2021 Excerpt from *Critical and Miscellaneous Essays of Sir Walter Scott, Bart, Vol. 3* In the mean time, we must not altogether forget the works of which the titles are prefixed to this article. This, to be sure, is a fashion with our caste, from which we do not pretend altogether to exculpate ourselves. If we admit not a fair and impartial division betwixt the reviewers and the reviewed, the neglected authors have a right to share the impatience of the witty Charles Townsend. When he came to Scotland, after having married a lady of that nation of the very highest rank, large fortune, and extensive connections, the tide of relations, friends, and vas sals, who thronged to welcome the bride, were so negligent of her husband as to leave him in the hall while they hurried his lady forwards into the state apartments, until he checked their haste by exclaiming, for Heaven's sake, gentlemen, consider I am, at least, Prince George of Denmark. Messrs. Kelly and Boaden would have the same reason to complain of us, should we altogether forget them in an article which we have decorated with their names. But they must wait at the bottom of the stairs, with gentle patience, for five minutes longer: we will show them up presently. Essays, Vol. 3 Mar 21 2022 Excerpt from *Essays, Vol. 3: Political, Historical, and Miscellaneous* Chateaubriand is universally allowed by the French, of all parties, to be their first writer. His merits, however, are but little understood in this country. He is known as once a minister of Louis XVIII., and ambassador of that monarch in London; as the writer of many celebrated political pamphlets; and the victim, since the Revolution of 1830, of his noble and ill-requited devotion to the unfortunate family. Few are aware that he is, without one single exception, the most eloquent writer of the present age; that, independent of politics, he has produced many works on morals, religion, and history, destined for lasting endurance; that his writings combine the strongest love of rational freedom with the warmest inspiration of Christian devotion; that he is, as it were, the link between the feudal and the revolutionary ages - retaining from the former its generous and elevated feeling, and inhaling from the latter its acute and fearless investigation. The last pilgrim, with devout feelings, to the Holy Sepulchre, he was the first supporter of constitutional freedom in France; discarding thus from former times their bigoted fury, and from modern, their infidel spirit; blending all that was noble in the ardour of the Crusades, with all that is generous in the enthusiasm of freedom. The Poverty of Theory & Other Essays Jul 25 2022 This classic collection of essays by E.P. Thompson, one of England's most renowned socialist voices, remains a staple text in the history of Marxist theory. The bulk of the book is dedicated to Thompson's famous polemic against Louis Althusser and what he considers the reductionism and authoritarianism of Althusserian structuralism. In lively and erudite prose, Thompson argues for a self-critical and unapologetically humanist Marxist tradition. Also

included are three essays of considerable importance to the development of the New Left. Called essential reading for American radicals by *The Nation*, this book is one no serious socialist can afford to be without.

The Final Elegy: the Consolation of the Classics in Old Age Feb 26 2020 Old age is a time of losses—permanent, cumulative and irreversible. These losses include our loss of work in retirement, the eclipse of our past, our biological decline, dependency resulting from such decline, the foreshortening of our future, the abandonment of belief in our own improvement and our society's progress, and, of course, our death. This book views these losses as part of an elegy of old age. Elegy is a poetic or prose mourning of loss. Sadness and other emotions result. With elegiac understanding we detach ourselves from these losses to seek and find consolation. This book is concerned with achieving intellectual detachment through meditative reflection with the help of reading and appreciating the classics. The final stage of the old age elegy—consolation can be found, at least in part, within the classics—"the garlands of repose". The classics are broadly defined by Matthew Arnold as: "the best that [has] been thought and said: { or found in the fine arts}. To benefit from the classis requires a life-long liberal education. This education begins with an introduction to the classics in youth, makes use of them during our adult lives, and supplies their conclusion for old age meditation. Such significant works enable us to place the losses we suffer within an intellectual framework of perennial ideas. It is by means of such an intellectual framework that we secure consolation in old age. Classic works familiarize us deeply with the losses and emotions we endure—suggest substitutes for the goods of the life we have lost in old age, offer opportunities of catharsis for the sadness we experience and help us transform ourselves in old age. Classics help us see old age and its losses as part of a complete life which hold a unique value of its own, while remaining part of larger nature processes, history and intellectual traditions.

The American Evasion of Philosophy Nov 24 2019 Taking Emerson as his starting point, Cornel West's basic task in this ambitious enterprise is to chart the emergence, development, decline, and recent resurgence of American pragmatism. John Dewey is the central figure in West's pantheon of pragmatists, but he treats as well such varied mid-century representatives of the tradition as Sidney Hook, C. Wright Mills, W. E. B. Du Bois, Reinhold Niebuhr, and Lionel Trilling. West's "genealogy" is, ultimately, a very personal work, for it is imbued throughout with the author's conviction that a thorough reexamination of American pragmatism may help inspire and instruct contemporary efforts to remake and reform American society and culture. "West . . . may well be the pre-eminent African American intellectual of our generation."—*The Nation* "The American Evasion of Philosophy is a highly intelligent and provocative book. Cornel West gives us illuminating readings of the political thought of Emerson and James; provides a penetrating critical assessment of Dewey, his central figure; and offers a brilliant interpretation—appreciative yet far from uncritical—of the contemporary philosopher and neo-pragmatist Richard Rorty. . . . What shines through, throughout the work, is West's firm commitment to a radical vision of a philosophic discourse as inextricably linked to cultural criticism and political engagement."—Paul S. Boyer, professor emeritus of history, University of Wisconsin—Madison. Wisconsin Project on American Writers Frank Lentricchia, General Editor

Queer/Adaptation Sep 03 2020 This collection of essays illuminates the intersection of queer and adaptation. Both adaptation and queerness suffer from the stereotype of being secondary: to identify something as an adaptation is to recognize it in relation to something else that seems more original, more authentic. Similarly, to identify something as queer is to place it in relation to what is assumed to be "normal" or "straight." This ground-breaking volume brings together fifteen original essays that critically challenge these assumptions about originality, authenticity, and value. The volume is organized in three parts: The essays in Part I examine what happens when an adaptation queers its source text and explore the role of the author/screenwriter/director in making those choices. The essays in Part II look at what happens when filmmakers push against boundaries of various kinds: time and space, texts and bodies, genres and formats. And the essays in Part III explore adaptations whose source texts itself is queer. The book includes discussion of a wide variety of texts, including opera, classic film, genre fiction, documentary, musicals, literary fiction, low-budget horror, camp classics, and experimental texts, providing a comprehensive and interdisciplinary introduction to the myriad ways in which queer and adaptation overlap.

Women and Crime - Three Essays May 23 2022 While it is generally agreed amongst criminologists that the world of crime is predominantly the domain of men, women played a much larger role than they do today before the twentieth century. "Women and Crime" contains a fascinating collection of three classic essays by various authors on the subject of women and crime, examining the relationship between the two in the nineteenth century and looking at what differences there were in things like urbanisation and public lifestyles that caused women to be more involved in crime in the past. The essays include: "Criminal Woman, By Miss Helen Zimmern", "The Relations of Women to Crime, By Ely Van De Warker, M. D.", and "The Relations of Sex to Crime, By Ely Van De Warker, M. D.". This volume offers fantastic insights into nineteenth-century attitudes towards crime and the sexes, making it highly recommended for those with an interest in criminology, sociology, and history. England, China, and Opium Apr 10 2021 Excerpt from *England, China, and Opium: Three Essays, Reprinted, With Slight Alterations, From the Contemporary Review* It is impossible to think for a moment of our relations with China, without recurring to the opium question. In an interesting paper on those relations, in the November number of the *Fort nightly Review*, Dr. Bridges concluded with an almost despairing allusion to this question, as if it were one about which there is no real controversy as to the merits, and yet no hope of those merits being attended to, or allowed really to govern our counsels. There is too much ground for such a feeling; and yet I have such faith in the good feeling of my countrymen, that I believe that if they could once realize what it is that we have done and are doing as regards opium, they would rise as one man, and get rid of the accursed thing, which, as sure as there is a moral government in the world, will one day or the other find us out. Manifesto Jun 19 2019 "If you are curious and open to the life around you, if you are troubled as to why, how and by whom political power is held and used, if you sense there must be good intellectual reasons for your unease, if your curiosity and openness drive you toward wishing to act with others, to 'do something,' you already have much in common with the writers of the three essays in this book." – Adrienne Rich With a preface by Adrienne Rich, *Manifesto* presents the radical vision of four famous young rebels: Marx and Engels' *Communist Manifesto*, Rosa Luxemburg's *Reform or Revolution* and Che Guevara's *Socialism and Humanity*.

The Belgian Essays Jul 21 2019 Venturing out of Yorkshire for the first time in their lives, the Bronte sisters Charlotte and Emily traveled to Brussels in 1842, and Charlotte returned for another visit in 1843. The journeys proved to be pivotal in both their writing careers. Under the tutelage of their brilliant teacher Constantin Heger, the young authors penned the twenty-eight essays (devoirs) collected for the first time in this volume. Each essay, presented in its original French, is accompanied by an English translation and commentary to establish historical and literary context. Where M. Heger made comments, they are reproduced in full. Nine of the essays have never been published before. Sue Lonoff offers a mine of information on the Brontes and their Brussels experience, exploring why the months in Belgium meant so much to the sisters and how their writing exercises affected their developing prose styles.

Three Essays on Australian Weather (Classic Reprint) Feb 20 2022 Excerpt from *Three Essays on Australian Weather* The first essay, *Moving Anticyclones*, is here reproduced with the consent of the author. It establishes the progressive easterly motion of weather over Australia. The great importance and controlling influence of anticyclones upon the usual weather, traces their progress over Australia, and the changes produced in them by the contour of the country, gives records of the number of such weather systems which pass over Australia every month and year, and traces their motion in latitude with the seasons. Intelligibility and the Philosophy of Nothingness Aug 26 2022 Excerpt from *Intelligibility and the Philosophy of Nothingness: Three Philosophical Essays* Nishida has written extensively on philosophy and his complete works fill twelve volumes. The present work consists of translations of three of his studies that all belong to a comparatively late phase in his development. Nishida has said of himself: I have always been a miner of ore; I have never managed to refine it. The absence of a last systematic refinement may indeed be felt by the reader of the present selection. Still, the reader may be impressed by the strangely new experience of life here encountered, whether his heart is moved or his mind is made

to think. Nishida uses Western concepts to express his philosophical reflection. The reader may not always perceive this, however, since Nishida's basic experience, with Zen at its center, cannot properly be formulated in Western terms and needs the structure of a new philosophical theory. The approach to his thought is, therefore, not easy. Yet we are convinced that Nishida's philosophy can open a new way towards the mutual understanding of East and West. In the hope of contributing to this mutual comprehension, upon which a new philosophy of mankind can be erected, we venture to offer the present publication to Western readers. With forcefulness, clarity, and often biting humor, McCabe attacks two millennia of Christian tradition using the weapons of science and reason.

On the Genealogy of Morality: The Three Essays - Complete with Notes Mar 29 2020 On the Genealogy of Morality, the classic three essay treatise of Friedrich Nietzsche, is considered by scholars to be one of the author's philosophic masterworks. This astounding work represents the maturity of Nietzsche's ideas, and consists of three distinct essays. In each, Nietzsche isolates and expands upon ideas he expressed in *Beyond Good and Evil*. Nietzsche juxtaposes ideas of weakness and strength, and notions of human preconception as generated over millennia of hierarchy inclusive of slavery, to demonstrate an evolution of ideas beyond traditional duality. This text controversially introduces the 'blond beast' - a forebear for Nietzsche's posthumous association with Nazism and racial superiority. Nietzsche demonstrates how people with allegiance to ascetic ideals gained traction in society. He proceeds to discount science as an opposing influence, together with historians and idle thinkers, advocating for criticism of what is accepted as truth, and a replacement for flawed definitions.

The Complete Works of Plutarch, Vol. 3 Dec 26 2019 Excerpt from *The Complete Works of Plutarch, Vol. 3: Essays and Miscellanies* The cruel Viper ne'er will quit my foot; Her dire envenomed teeth have there ta'en root. For pain will not troll off as pleasure doth, nor imitate it in its pleasing and tickling touches. But as the clover twists its perplexed and winding roots into the earth, and through its coarseness abides there a long time; so pain disperses and entangles its hooks and roots in the body, and continues there, not for a day or a night, but for several seasons of years, if not for some revolutions of Olympiads, nor scarce ever departs unless struck out by other pains, as by stronger nails. For who ever drank so long as those that are in a fever are a - dry? Or who was ever so long eating as those that are besieged suffer hunger? Or where are there any that are so long solaced with the conversation of friends as tyrants are rack and tormenting Now all this is owing to the baseness of the body and its natural incapacity for a pleasurable life; for it bears pains better than it doth pleasures, and with respect to those is firm and hardy, but with respect to these is feeble and soon

palled. To which add, that if we are minded to discourse on a life of pleasure, these men won't give us leave to go on, but will presently confess themselves that the pleasures of the body are but short, or rather indeed but of a moment's continuance if they do not design to banter us or else speak out of vanity, when Metrodorus tells us, We many times spit at the pleasures of the body, and Epicurus saith, A wise man, when he is sick, many times laughs in the very extremity of his distemper. The Probable Infinity of Nature and Life Apr 22 2022 Excerpt from The Probable Infinity of Nature and Life: Three Essays It is almost as much on account of the super-history furnished by these essays as on account of what is said in them that I am now publishing them. They were not written with any definite purpose of publication. The ones on spontaneous generation and multiple causes were prepared as addresses for scientific societies. That on the infinity of nature was written mainly to enable me to see where my biological development was tending as touching other domains of knowledge. To state more specifically why I now publish the essays essentially as they were written, I find on approaching the completion of the Unity of the Organism, that I need the essays in print, partly as record and partly as super-record. What I am writing now in the larger work, I want to attach directly to what I wrote earlier about the origin of life and to do so without rewriting the old essay and incorporating it as a section in the later book. Critical, Historical, and Miscellaneous Essays and Poems, Vol. 3 (Classic Reprint) Sep 15 2021 Excerpt from Critical, Historical, and Miscellaneous Essays and Poems, Vol. 3 Nor are the immunities of sex the only immunities which Miss Aikin may rightfully plead. Several of her works, and especially the very pleasing Memoirs of the Reign of James the First, have fully entitled her to the privileges enjoyed by good writers. One of those privileges we hold to be this, that such writers, when, either from the unlucky choice of a subject, or from the indolence too often produced by success, they happen to fail, shall not be subjected to the severe discipline which it is sometimes necessary to inflict upon dunces and impostors, but shall merely be reminded by a gentle touch, like that with which the Laputan flapper roused his dreaming lord, that it is high time to wake. Write All These Down Jan 27 2020 Joseph Kerman is one of the most eminent, wide ranging, and readable of today's writers on music. Admirers of his many books - on musicology, opera, Beethoven, and Elizabethan music - will find much to interest them in this collection of essays, taken from general journals, such as the Hudson Review and the New York Review of Books, as well as more specialized publications. Included are several well-known pleas addressed by Kerman to his professional colleagues in an effort to get them to adopt a more critical orientation for their work. Other essays range from a moving account of William Byrd as a spokesman for the beleaguered Elizabethan Catholic minority to a discerning analysis of Beethoven's famous obsession with the key of C minor. The controversial tenets of Kerman's classic Opera as Drama (1956) are reaffirmed in essays on Don Giovanni, The Magic Flute, Tristan und Isolde, Ernani, and I Lombardi. Beautifully written, this book offers challenging models for a humane and historically informed music criticism.

Essays and Studies by Members of the English Association, Vol. 3 (Classic Reprint) Mar 09 2021 Excerpt from Essays and Studies by Members of the English Association, Vol. 3 Religion, architecture; there is also, I think, a third quality, which critics have not noticed, or have treated as obvious. I mean the quality and precision of the texture out of which Greek poetry is woven. It is not merely that the actual words are finer in quality than English words, though I incline to think that this is true also. They build their palace of cedar, and we of rougher wood. But still more important is the actual precision of the building, the exact fitting of word into word with reference both to the emphasis and the rhythm. This depends greatly on the importance of quantity in Greek speech. To take one instance: it is the essence of Greek poetry that a long unstressed syllable shall nevertheless be felt as long; and that is a rock on which English verses make shipwreck by the thousand. Three Essays Jul 01 2020 Excerpt from Three Essays: On Regeneration, the Antedeluvian Patriarchs, and the Journeys of the Israelites IT is With much diffidence I submit this Essay to public view, knowing my great inability to write upon a subject which many already have attained in a much higher degree than is here expressed; and from such gratitude to the Great Giver of all our mercies will arise, not only to their own minds, but also to mine; may they likewise recal the words of Solomon, Give instruction to a wise man, and he will be yet wiser. A Human Eye: Essays on Art in Society, 1997-2008 Sep 22 2019 "Adrienne Rich is the Blake of American letters."—Nadine Gordimer Across more than three decades Adrienne Rich's essays have been praised for their lucidity, courage, and range of concerns. In A Human Eye, Rich examines a diverse selection of writings and their place in past and present social disorders and transformations. Beyond literary theories, she explores from many angles how the arts of language have acted on and been shaped by their creators' worlds.

Nonsense Upon Stilts (Routledge Revivals) Oct 04 2020 In Nonsense upon Stilts, first published in 1987, Waldron includes and discusses extracts from three classic critiques of the idea of natural rights embodied in the 1789 Declaration of the Rights of Man and the Citizen. Each text is prefaced by an historical introduction and an analysis of its main themes. The collection as a whole is introduced with an essay tracing the philosophical background to the three critiques as well as the eighteenth-century idea of natural rights which they attacked. But the point of reproducing these works is not merely historical. Modern attacks on 'rights-based' political philosophy mirror the concerns of Bentham, Burke and Marx. Jeremy Waldron has therefore added an extensive concluding essay which relates these classic texts to the modern discussion of rights and re-examines the idea of rights in the light of contemporary critiques. This text provides an invaluable teaching tool for courses in politics and philosophy.

Nigerian History, Politics and Affairs Jul 13 2021 These essays attempt to focus the light of history, on Nigeria, Nigerians and their contemporary condition. The root idea here is that fundamental, to all historical works - that when the mind interacts with the past, the result is something, like a torchlight whose beam is focused on the present, thus enabling us to achieve a better understanding of the problems which face us. Afigbo has probed deep into Nigeria's past bringing out all the facets, all the elements and, all the issues that are necessary to improve the present.
