Fully Involved Oct 19 2021 Katie Garrett is madly in love with her dashing firefighter husband, Andy. When he is diagnosed with cancer, their entire world is turned upside down. Andy clumsily tries to protect Katie from the truth by not telling her, but her fear - and his increasing pain and tumultuous emotions - only feed her deep-seated insecurities, as they fight for Andy's life and for their marriage. While the fire station and its camaraderie are Andy's refuge, station officer Lt. Mike Bentley wages a vendetta against Andy, making Andy more determined to avoid revealing weakness of any kind. In spite of Bentley's despising Andy, the C shift crew rally to support Andy until events take a downward turn.

Firefighters face a myriad of dangers, but the invisible dangers - his past, her fears -- can pose the greatest threat of all. Will courage, duty, and love be enough to save Andy from these unseen threats? Will he come to recognize the far-reaching impact his life has on others? If the worst should happen, would his greatest legacy be the love of the fire service or the love for his wife? In the end, the unforeseen might have the greatest significance of all.

Euro Firefighter Dec 09 2020 Paul Grimwood has responded and worked from over a hundred fire stations in the USA and Europe. In this, his third book, he demonstrates how the very best strategies and

tactical approaches from Europe and the USA may be effectively combined to enhance firefighter tactics and safety at structure fires. The book also covers and exceeds the 2007 syllabus of the European (UK) EDEXCEL CFBT Instructor Qualification (90 hours) for practical Fire Behavior Training (flashover training in ISO shipping containers and other FDS units). Euro Firefighter is for the CFBT instructor, firefighter, company officer and fire chief. The concept of teaching about flashover using ISO steel shipping containers was developed in Europe -- now read how European instructors teach fire behavior using a vast array of Fire Development Simulators (FDS). This book will also take you out onto the fire-grounds of London, New York, Madrid, Chicago, Paris, Germany and Sweden, demonstrating how similar fires are fought using different strategic approaches and showing how US and EURO firefighting tactics are gradually aligning in many areas. From tactical ventilation to air management, from Rapid Intervention Teams to high-rise firefighting and limited staffing, the author brings you the best tactics from Europe and the USA in one training manual! Written in such a way that the training officer can immediately transfer key learning points directly into training presentations, the core principles of this training package enhance firefighter safety on the fire-ground. The book also provides a LINK CODE for ongoing updates and web-based downloads. Euro Firefighter covers a broad range of issues important to anyone who steps off a fire truck at the scene of an emergency.

Firefighter Feb 08 2021 Every day, people are faced with critical, life-threatening situations - in times of trouble, who can help? In this title, readers will get to know the firefighters who arrive on the scene of a fire. Chapters highlight the history of fighting fires as well as the training, tools, and knowledge firefighters need to save lives and property during forest fires, wildfires, and house fires. An interview with a real-life firefighter provides insight into what makes the worst days bring out their best. From volunteers and fire

marshals to smoke jumpers, the stories of these Emergency Workers will keep young readers on the edge of their seats. Aligned to Common Core Standards and correlated to state standards. Abdo & Daughters is an imprint of Abdo Publishing, a division of ABDO.

Firefighting Strategies and Tactics Nov 07 2020 The Fourth Edition of Firefighting Strategies and Tactics meets and exceeds the course outcomes of the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) course Strategy and Tactics (C0279). Firefighting Strategies and Tactics, Fourth Edition is a valuable resource for fire fighters studying for promotion or taking civil service examinations. The Fourth Edition reinforces safe and effective firefighting strategies and tactics for fire fighters and fire officers to employ during a wide spectrum of fire incidents. The chapters follow a natural progression, each chapter building on the previous foundation to provide a broad understanding of firefighting strategy and tactics. Firefighting Strategies and Tactics, Fourth Edition offers in-depth coverage of potential incident hazards, strategic goals, and tactical objectives at:
One- and two-family dwellings Multiple-family dwellings
Commercial buildings Places of assembly High-rise buildings
Vehicle fires Wildland fires The Fourth Edition also includes: An Emphasis on Safety—Safety and professionalism are stressed throughout the chapters and are reinforced through discussions of incident effectiveness, hazard awareness, and strategic decision-making. Information for Today's Fire Service—Expanded and new discussions on geographic information system (GIS mapping), drone use for creating preincident plans, cancer risks in the fire service, gross decontamination of bunker gear after fires to reduce carcinogens, lookouts-communications-escape routes and safety zones (LCES), and deployment of rapid intervention crews at wildland fires. Engaging Case Studies—Opening each chapter, case studies highlight actual events to emphasize the importance of

developing sound strategies and tactics to fight fires effectively and safely. Additional case studies close out each chapter and provide students an opportunity to test their understanding in a safe environment. Knowledge in Action—The final chapter demonstrates how the strategies and tactics throughout this resource may be applied in scenarios set at various types of occupancies. This feature offers students an opportunity to see how concepts are applied in the real world.

3D Fire Fighting Aug 29 2022 Proposes changes in the way firefighters gain entry, advance hose-lines and approach compartment (room and space) fires within the confinement of a burning building. Discusses issues such as tactical venting of structures and alternative means of alleviating worsening conditions. Encourages a risk-based approach to interior size-up where the concept of personal risk versus gain must be seriously considered. Cf. P. 47.
